

Worcester Warriors Rugby Club

Work Placement Opportunity – 2026/27 Season

Worcester Warriors Rugby Club are pleased to offer a **Sport Science placement opportunity** for the **2026/27 rugby season**, providing valuable hands-on experience within a professional rugby environment.

The placement is designed for a motivated individual who is eager to develop practical skills, gain real-world experience, and make a positive contribution to the success of the club.

Placement Overview

The successful candidate will gain exposure to the day-to-day operations of a professional rugby club, working closely with experienced practitioners within the physical performance department. Placements will support training, match preparation, and athlete development across the season.

Duties include:

- Assisting with training and match-day support
- Collection and analyses of GPS data
- Monitoring and tracking of physical performance data
- Implementing recovery protocols
- Assisting with gym-based and field-based strength and conditioning sessions
- Providing general support to performance staff as required

Candidate Requirements

Applicants should:

- Have a strong interest in sport science
- Demonstrate commitment to further education within a relevant degree (e.g. Sport Science, Sports Rehabilitation, Physiotherapy, Strength & Conditioning)
- Be enthusiastic, motivated, and willing to learn
- Be available for the duration of the 2026/27 rugby season

Previous experience with GPS systems is highly desirable.

Application Details

A one-page CV should be sent to **sam.handy@sixways.co.uk**.

Interviews will commence immediately, with the position remaining open until filled.
